

Presenting

SOMAGLO® – DYE FOR YOUR SOMATIC CELL COUNTING

SomaGlo® is directly comparable to products that are currently on the market but with added convenience at an attractive price.

SomaGlo® is packaged in convenient packs of 10 vials where one vial contains enough dye for one 10 liter buffer/dye solution. In other words, one vial of SomaGlo® is equivalent to one Glocount tablet. To use, simply remove the cap and pour the contents into your buffer solution.

SomaGlo® is also available in a handy SomaCount kit for making 10 L of buffer/dye solution – complete with SomaGlo®, Triton X-100 and buffer powder.

Order today!

SomaGlo® 10-pack - enough for 100 L buffer/dye solution: P/N 12870

SomaCount kit for 10 L buffer/dye solution – complete with SomaGlo®, Triton X-100 and buffer powder: P/N 12883
